

Pan Pipes Challenge

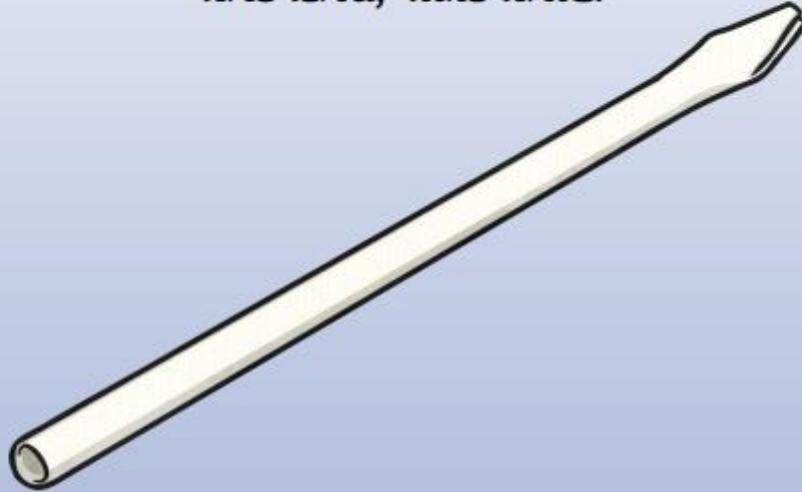

Your challenge is to create a set of pan pipes that will create sounds of different pitches, and explain how to change the pitch.

You will use straws, scissors, sticky tape and string to make the pan pipes.

Pan Pipes Challenge

Flatten the end 2cm of each straw, and cut a triangle in the end, like this.

Place the triangular end of the straw in your mouth and blow hard through the straw to make a sound. You may have to try few times to make the sound!

Use several straws to make your set of pan pipes. Stick or tie them together. Think about what you have learnt in order to make each straw make a different pitched sound.
